

Windows 10 Desktop Taskbar Tips

- **How to set-up Taskbar to show all files?**
- **How to pin a program to Taskbar?**
 - **Note, reason for Taskbar is that you just do a single click vs. double click on the Desktop and you see the Taskbar when other programs are open.**

First right click on task bar

- You then see a window and click on **Properties**

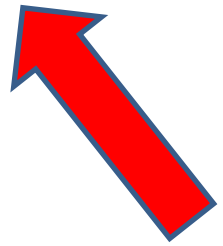

New Window Opens

- Then click on Toolbars

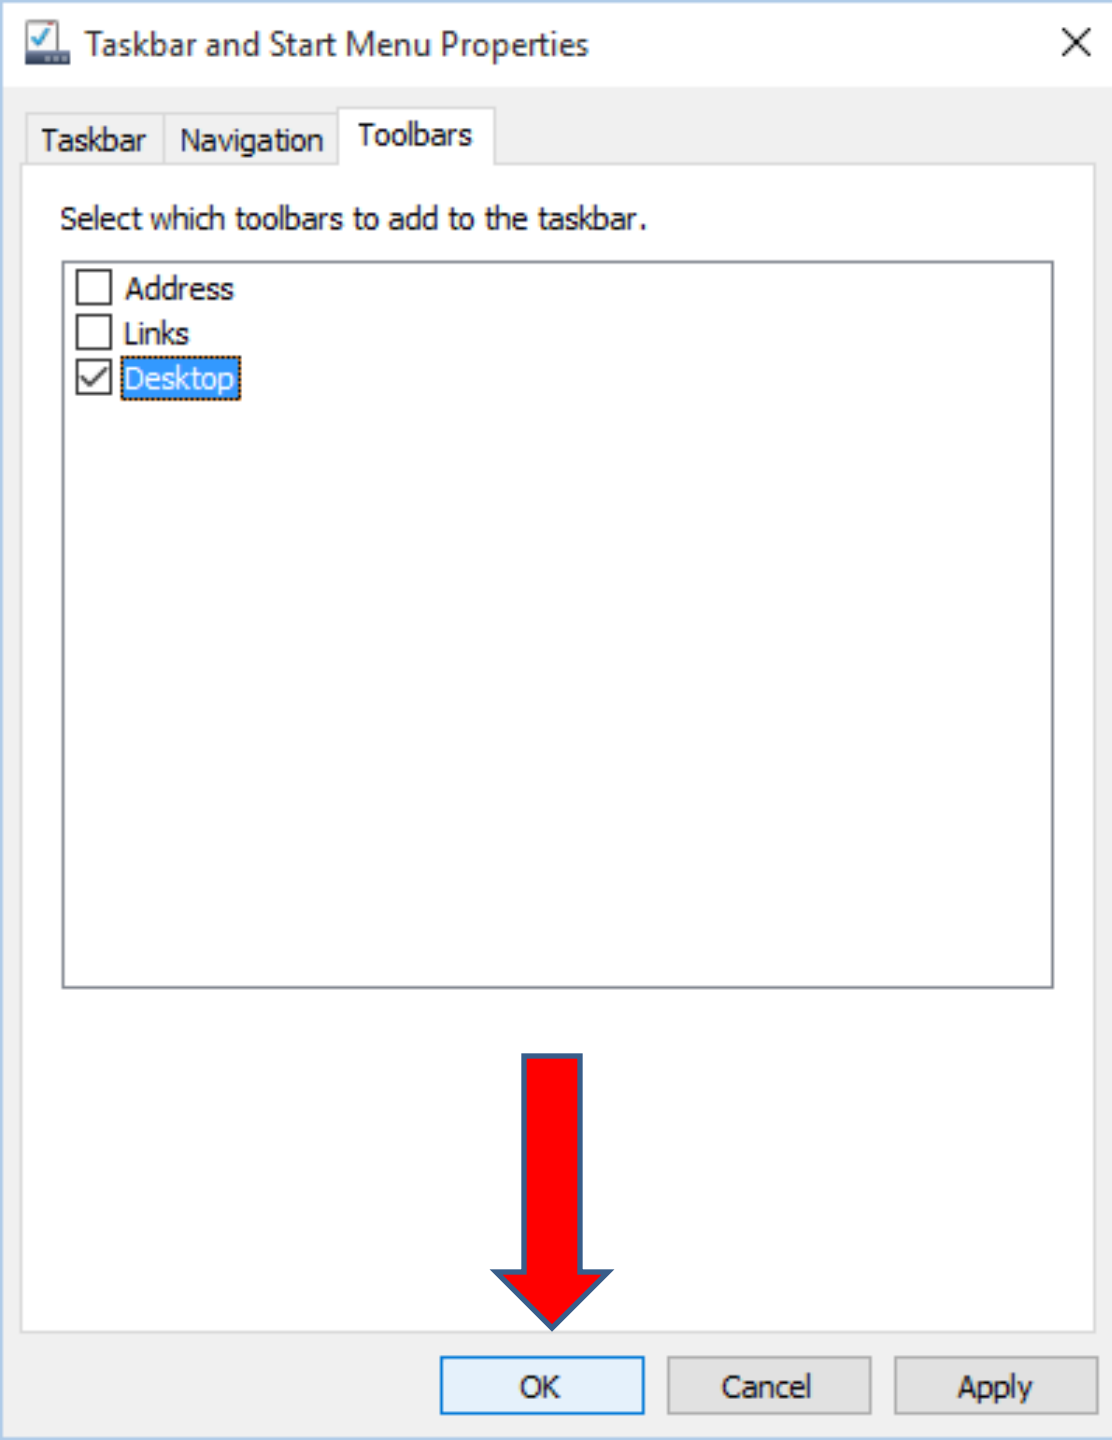

Select which toolbars to add to the taskbar.

- Address
- Links
- Desktop

Toolbars shows

- Then click on Desktop

Toolbars shows

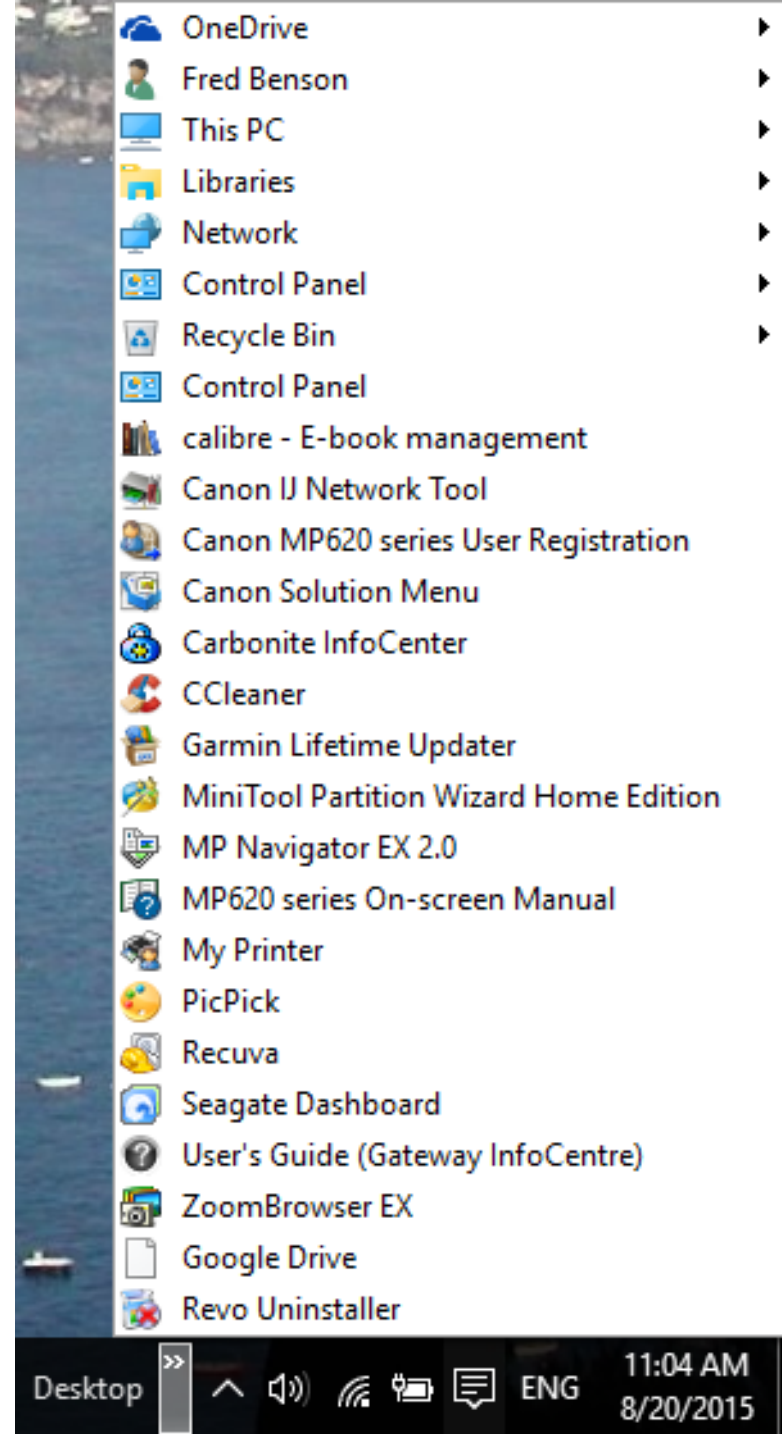

- Then click on OK

You then see Desktop on Taskbar

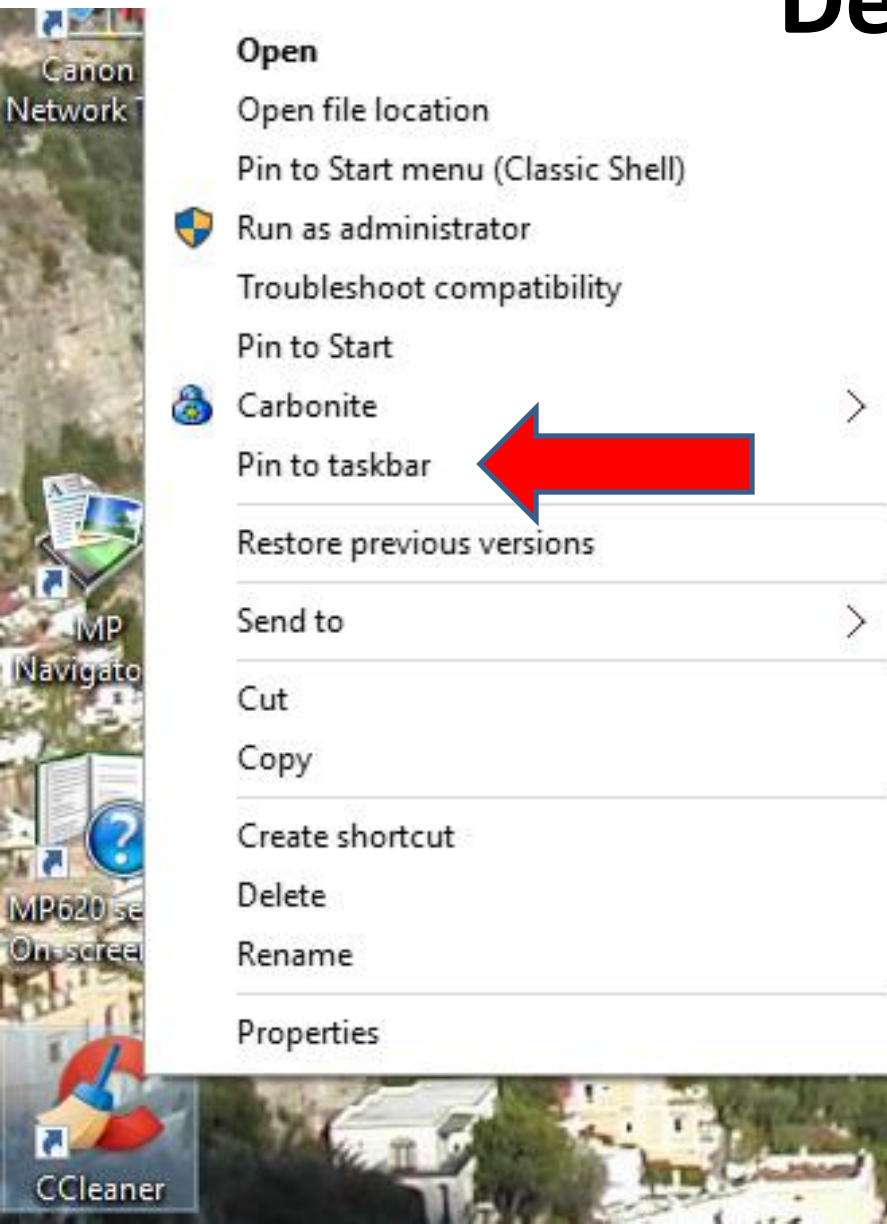

- Click here >>

You then see full list of everything

How to pin a program to Taskbar from Desktop

- **Right Click on Icon, like CCleaner and then click on Pin to Taskbar**

It then shows on the Taskbar
